

# Pool Safety Breaks

The pools will take mandatory 15 - minute safety breaks at designated times. *(Please see the pool schedule or ask the front desk for those times)*. The safety break is designed to give kids an opportunity to calm down and acknowledge their fatigue level; use the restroom and get a break from the possible ongoing ingestion of pool water. This helps to reduce the number of incidents a lifeguard needs to respond to as well as fecal accident and vomit closures.

Effective May 27, 2019
